# Veterinary Monitor

## Function

ECG

RESP

NIBP

SpO<sub>2</sub>

HR

TEMP

EtCO<sub>2</sub>

## Product Features

### 3 kinds of display interface

- Standard interface
- Large font
- Special interface for SpO<sub>2</sub> & NIBP

### Applicable to:

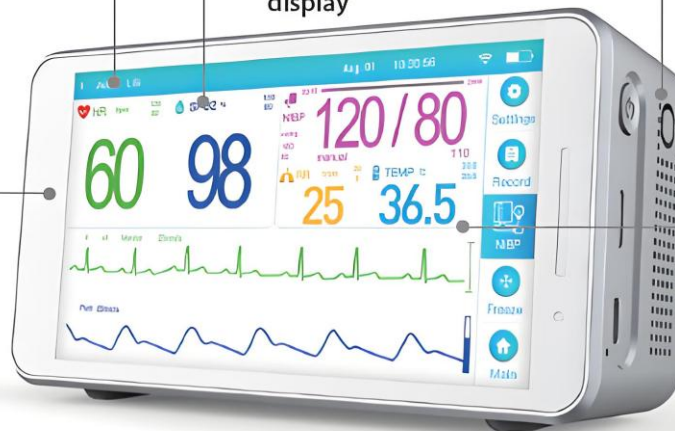

Dogs, cats, pigs and other large and small animals

Color 5.5 inch LCD screen,  
high definition high score  
display

Portable, suitable for a wide  
range of scenarios

Alarming clock, high-definition  
video playback and other  
functions

MMED6000DP-M5-V

# Veterinary Monitor

*Finish single pet measurement in about 60 seconds*

**60"** Measures NIBP in 60 second as the cuff inflates

**30"** Complete a SpO<sub>2</sub> and PI reading in less than or equal to 30 seconds

**2** movement modes

convenient for medical staff in the medical ward round

3-level visible audible alarms, full-view display

Stores up 10000 measurements, accessible by pet ID for easy review

Clear 7" color display with large easy read information

Integrated carry handle

Smart storage space to keep the accessories

Light weight and portable with weight less than 2kgs

USB/wire LAN Data transmission

Selectable parameter setting makes patient vital signs checking more convenient and comprehensive

**MD2000C-V**

# Veterinary Monitor

## Function

## Optional

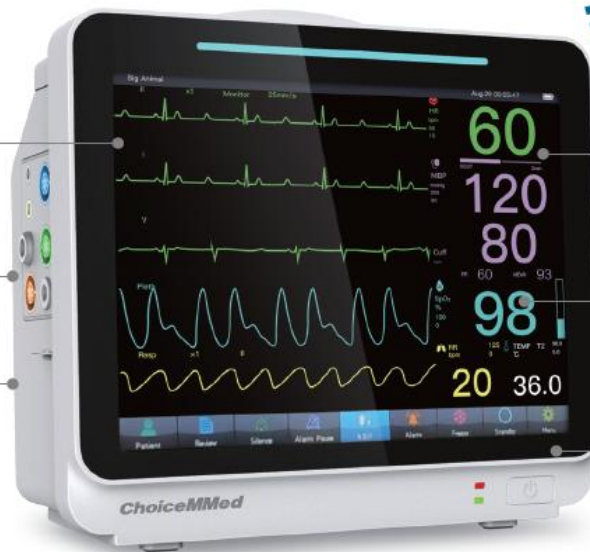

## Product Features

Maximum 12-channel waveform display on the same screen

The battery runs for **5 hours**

Applicable to:  
Dogs, cats, pigs and other large and small animals

Color 12.1 inch full-touch LCD with high resolution display

The system software supports network upgrades

Remote monitoring function, Nurse call system optional

MMED6000DP-M12-V

TEMP

## Optional

EtCO<sub>2</sub>

2IBP

CSM

## Applicable to:

Dogs, cats, pigs and other large and small animals

# Portable Veterinary Ultrasound Scanner

Farm Scan M50, featuring premium image quality and robust design, suited for all veterinary applications in difficult field conditions on a daily basis. Professional mechanical sector ultrasound system with excellent image quality for small and large animal pregnancy.

Function

**Farm Scan M50**

## Applicable to:

cows, horses, sheep, dogs and other animals

- Diagnosing reproductive diseases
- Early pregnancy diagnosis
- Monitoring the uterine environment
- Monitoring follicles and the corpus luteum
- Estimating the number of fetuses and predicting gestational age
- Observing embryonic development
- Determining fetal sex

# Farm Scan M50

## Accurate Animal Pregnancy Checks

- It is designed specifically for veterinarians and farmers to perform accurate and efficient pregnancy checks on animals like cows, horses, sheep, and dogs

## Advanced Scanning & Diagnostic Functions

- Equipped with a 3.5MHz waterproof mechanical sector scan probe, this device offers precise measurements for distance, circumference, area, volume, heart rate, gestational age, and even lesion detection

## Adjustable Interface & Pseudo-Color

- Customize the scan interface, background, and font colors for optimal viewing.
- Includes pseudo-color functionality for enhanced imaging and clarity.
- Display mode B, B+B, B+M, M, 4B

## High-Definition 5.8" LCD Display

- 8 levels zoom in, up to 150 images storage

## Portable & Lightweight Design

- Weighing only 1.05 lb

## USB Image Export

- The device supports USB image export with the ability to replay 450-550 frames for detailed examination and review USB

# Handheld Laser Therapy Device

Cold laser therapy device offers a non-invasive solution for the treatment and rehabilitation of dogs, cats, horses and other animals.

## Product advantage

100% physical therapy , safe for all animals

Effectively treat pain and inflammation

Portable handheld device, you can use it anywhere

Super large color LED display

Magnetic massage lens , uniform light spot

CE approved production

# Application

## Pain Management

Used to relieve various types of pain, including arthritis, back pain, neck pain, postoperative pain, etc

## Inflammation treatment

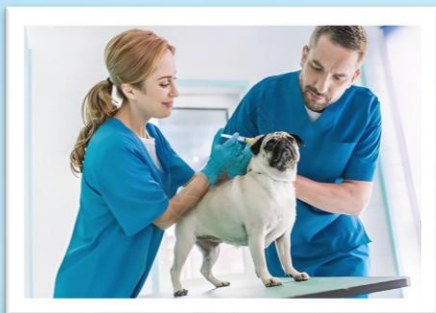

Reduce inflammation and swelling

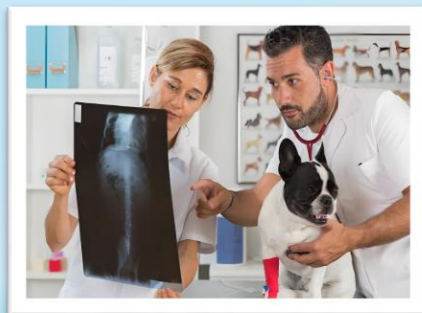

## wound healing

Healing of soft tissue injuries and open wounds

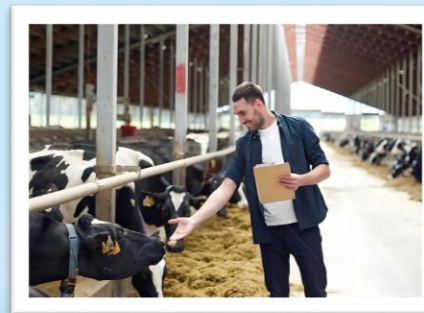

## Application scenarios

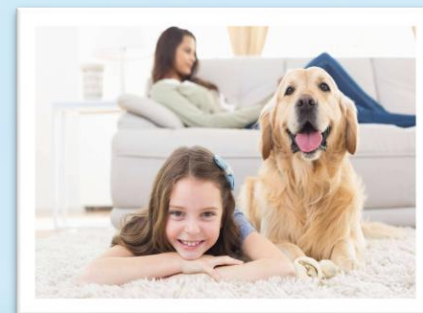

animal clinic

pet hospital

livestock farm

Household

# The End Thank you
